

# Deloraine & Westbury Medical Centre

Dear patients of D&WMC

Thank you for your help to STOP THE SPREAD OF COVID.

Our practice will take some precautionary measures and review them on regular basis, as the situation is likely to change from the borders opening on the 15/12/2021.

Any patient with respiratory symptoms will first be offered a telehealth appointment. If face to face is deemed required by a GP it will be in our designated respiratory clinic. Wearing a surgical mask is mandatory. Cloth masks are not acceptable. We can provide a mask for \$1.

If you are not double-vaccinated further restrictions will apply, meaning that Telehealth will be the first option even if you have no respiratory symptoms. If you are deemed safe to enter the practice by a GP, you will still be required to wear a mask to enter the clinic and at all times within the practice.

Thank you for supporting the wellness of our team and our community
